The cost of these has to be balanced against any measurable improvement in outcome these new treatments may bring.

Society is demanding orthopaedic surgeons have not only high levels of technical skill and orthopaedic knowledge throughout their careers, but are surgeons with compassion, who have a social conscience, who are good communicators, whose judgement is sound, and who as expected of those following a profession, behave ethically.

Tomorrow’s orthopaedic surgeons will have to provide orthopaedic care that can be proven to be effective, that society can afford, and that is therefore sustainable. Selecting and training men and women to be tomorrow’s orthopaedic surgeons is a task for us today.

The AoA Annual Scientific Meeting aims to touch on these subjects and numerous others, to continue the ever-advancing role of orthopaedics worldwide. We hope that you can join us in this esteemed event.

We look forward to welcoming you to Brisbane – the ‘River City’.

John Tuffley  
AOA President

Allan Wang  
Scientific Secretary
CONFERENCE DISCLAIMER

The program for this Continuing Orthopaedic Education (COE) Meeting is correct at the time of publication. However, the Australian Orthopaedic Association (AOA) reserves the right to change dates, the program and speakers without notice as a result of circumstances beyond its control.

The information contained in any documents and publications contained in the COE conference package and presentations provided at the COE (Conference Information) is of a general nature and may have been provided at least in part to AOA by third parties. While reasonable care has been exercised to ensure the accuracy of Conference Information, AOA, its officers, directors, employees and agents do not make any representation, guarantee or warranty whether express or implied as to the accuracy, reliability, completeness or currency of Conference Information nor its usefulness in achieving any purpose. Conference attendees and AOA members are responsible for making their own enquiries as to the accuracy, reliability and completeness of any Conference Information before taking any action based on Conference Information.

Conference Information may be amended from time to time. Conference attendees and AOA members should make their own enquiries regarding any amendments or alterations to any Conference Information.

Conference Information does not constitute medical or professional advice. Conference attendees and AOA members should obtain appropriate medical or professional advice relevant to their own particular circumstances.

To the maximum extent permitted by law, AOA does not accept any:
- responsibility for any opinions, advice or information contained in Conference Information, given or otherwise provided at the COE, or
- liability (direct or indirect) in contract, tort (including negligence) or otherwise for any injury, loss, claim, damage, incidental or consequential damage, arising out of, or in any way connected with, the use of, or reliance on, any Conference Information, or any error, negligent act, omission or misrepresentation in Conference Information and you waive all potential rights against AOA in this regard.
